SUMMARY

Front-End Developer skilled in building responsive web applications using HTML, CSS, JavaScript, and Bootstrap. Proficient in React.js and Tailwind CSS. Focused on writing clean, maintainable code and delivering intuitive UI in collaborative, fast-paced environments.

WORK EXPERIENCE

Web Developer, Rapsol Technologies Pvt Ltd   **Feb 2025 - Present**

- Developed responsive, cross-browser compatible websites using HTML, CSS, JavaScript, and Bootstrap, ensuring a seamless user experience across devices and platforms.

- Utilized Git for version control, actively collaborating in agile development cycles to deliver high-quality features and maintain code integrity in a fast-paced, team-oriented environment.

- Redesigned and modernized outdated user interfaces, implementing intuitive layouts and best practices to significantly improve user experience, accessibility, and overall design aesthetics.

- Optimized website performance by applying efficient coding techniques and leveraging tools like Chrome DevTools to identify and resolve performance bottlenecks.

EDUCATION

Bachelor of Computer Application   **Jul 2017 - May 2020**
Dr. MGR Chockalingam Arts and Science College, Arni
Percentage: 70.29%

Higher Secondary Certificate   **April 2017**
